

**Call for Mutual Support Within the Airport Community  
Adopted by the 12<sup>th</sup> ACI Asia-Pacific Annual Assembly  
11 April 2017, Doha**

The Twelfth Assembly of the Asia-Pacific Region of Airports Council International, convened on this eleventh day of April 2017, in Doha, Qatar,

Recognizing that:

- The long-term sustainability and growth of the international air transport network will in part depend on the overall and individual performances of its components;
- There exist great disparities in the levels of aerodrome safety, aviation security and airfield infrastructure at the member airports of ACI Asia-Pacific; and

Noting that:

- ICAO has initiated a campaign entitled “No Country Left Behind” to promote the mutual assistance between States, especially in matters related to aerodrome safety and aviation security;
- ACI has a wealth of resources and programs already available to assist its Members in enhancing safety, security and other priority areas such as environment, and

Recalling that:

- The 10<sup>th</sup> and 11<sup>th</sup> ACI Asia-Pacific Assemblies adopted resolutions for its Members to support ACI’s APEX programs by hosting APEX in Safety and Security reviews and by providing assessors to these reviews;

Collectively resolve to:

- Reaffirm and increase its support to the provision of ACI’s programs and services to Members in need, such as providing instructors and venue for training courses and seminars, and providing assessors for ACI’s APEX in Safety and Security programs;
- Make use of ACI’s services if needed, by sending staff to ACI training courses and seminars and hosting APEX safety and security reviews; and
- Help improve ACI’s services by communicating training needs to the Regional Office and actively participating in the ACI Asia-Pacific Regional Human Resources Committee to formulate ACI training policy and develop ACI training programs in the region.
